

RODRIGO CELIS

Full-Stack Developer | Technical Specialist

Hollywood, Florida | (954) 832-2731 | rodrigelis@gmail.com | [linkedin.com/in/rodrigo-celis-zamora](https://www.linkedin.com/in/rodrigo-celis-zamora) | Spanish | English

PROFILE

Technology enthusiast and problem-solver driven. Former frontend team lead with experience owning tech decisions. Telecommunications Engineering background, Full-Stack certified, daily Linux user.

WORK EXPERIENCE

TikTok Technical Product Specialist

Atento / TikTok

06/2024 – Present

Miramar, Florida

- Resolved 3,000+ technical cases for VIP clients and major global brands, analyzing campaign performance metrics and KPIs to diagnose the root cause of underperformance against client objectives.
- Conducted technical root-cause analysis to determine whether missed KPIs stemmed from platform/system issues or campaign strategy, delivering data-backed recommendations that generated over \$10M in revenue for enterprise clients.
- Investigated ad-delivery and algorithm behavior for high-budget VIP accounts, translating metric trends into actionable insights that drove campaigns back toward their target benchmarks.

Software Developer

Stagewood Consortium Inc.

09/2023 – 06/2024

Miami, Florida

- Led the frontend team across multiple projects, owning the end-to-end software architecture for both frontend and backend and driving technology decisions.
- Built a reusable design system with Storybook to standardize shared components and accelerate development across multiple frontend applications.
- Migrated legacy tooling such as CRACO to modern frameworks like Next.js, and integrated APIs including Mapbox, WordPress, and internal microservices.
- Established CI/CD workflows on AWS to automate and streamline the deployment of React applications, improving release speed and reliability

Frontend Web Developer

Ugo Digital Ltd

11/2022 – 09/2023

United States

- Created and maintained web interfaces using HTML, CSS, JavaScript, and React.
- Ensured cross-browser and cross-device compatibility across the application.
